

COPPER PLUMBING TUBE RECYCLED MATERIAL CONTENT

Third Party Certified Copper Plumbing Tube manufactured by Great Lakes Copper Ltd. is produced from purchased and internally recycled copper and augmented with purchased prime metal.

The internally recycled content comprises approximately 30% of all material produced. The remaining 70% is split between purchased recycled material and purchased copper cathode. The budgeted rate for purchased material is 70% recycled and 30% cathode.

Please forward any inquiries on this subject to the attention of the undersigned.
